

FOR IMMEDIATE RELEASE

KWIK-WALL™ Company
Springfield, IL
September 22, 2023

Kwik-Wall sponsoring at CSI National Conference 2023 in Minneapolis

Springfield, IL – Kwik-Wall Company is a newly announced sponsor at this year’s Construction Specifiers International conference in Minneapolis. This year’s CSI conference is titled, “*Mastering Change!*” and Kwik-Wall, one of the industry leaders in manufacturing folding panel partitions and movable glass walls, looks forward to introducing the CSI luncheon keynote speaker this year.

As the 42,000 CSI members and conference attendees know, great changes have occurred within the construction products industry over the past few years. Change is exemplified by Kwik-Wall this year. In 2023, Kwik-Wall experienced four important changes that can impact construction specifiers pertaining to operable partitions and movable glass walls.

- Kwik-Wall opened a new manufacturing facility in Mt. Pulaski, IL that increases production capacity providing contractors and customers with industry-low lead times. Kwik-Wall 2000 Series panels can have as low as eight-week lead times.
- Kwik-Wall launched the Luminous™ line of movable glass partition systems. Luminous by Kwik-Wall is offered in five product platforms – STELLA, LUNA, ILLONA, AVA and MATA. These platforms provide nine separate product configurations to meet both design and performance requirements.
- In June, Kwik-Wall acquired the North American intellectual property rights to all HUF COR products. Although the Hufcor Inc. company no longer exists, the highly specified HUF COR 600 Series operable partitions and Unispan overhead partition support systems continue to be available and are now offered exclusively by Kwik-Wall.
- Kwik-Wall launched a new website that includes modern drawing formats for CAD and Revit and a library of downloadable tech data sheets and editable specifications for easy 24/7 access. Later in 2023, our online configurator will be launched to allow our distributors to assist architects with both immediate layout and pricing assistance.

Because Kwik-Wall’s past year parallels the CSI theme of “*Mastering Change!*”, our team is also hosting two evening open houses at the Hyatt Regency on October 4 and 5 if any attendee is interested in learning more about these exciting changes launched by Kwik-Wall in 2023.

About Kwik-Wall Company

Founded in 1961, Kwik-Wall™ Company is a US family-owned operable partition manufacturer that offers a complete line of acoustically rated folding panel partitions and glass movable wall systems from

four separate Midwest manufacturing facilities. Kwik-Wall offers a broad range of 3 and 4-inch thick steel and aluminum framed panel constructions that allow schools, offices, hotels, convention centers, and other commercial facilities to divide and utilize space most efficiently. In 2023, Kwik-Wall introduced a full line of movable glass wall products, Luminous™ and acquired the North American rights to the HUF COR brand of folding panel partitions. All Kwik-Wall products can contribute to achieving LEED v4.1 project goals especially recycled material content, acoustic performance, and daylighting. Employing more than one hundred dedicated team members, Kwik-Wall Company products are sold and serviced by more than 100 distributor partners throughout North America.
