1. When applied to GRC board with A-848-B adhesive

2. When applied to 5/8" Type-X-Gypsum board with A-848-B adhesive

Kwik-Wall™ standard and upgrade vinyls are supplied by Koroseal®. Both Kwik-Wall and Koroseal support sustainable construction practices offering **option e™** wallcoverings that meet the same characteristics of Type II vinyl but made from recycled materials that contribute to LEED® MR 4 & EQ 4. Contact Kwik-Wall for availability and pricing impacts.

Actual color provided may vary from swatch shown due to dye-lot variations. Room lighting may also change the color's appearance.

All of our Koroseal standard and upgrade vinyl finishes contain mildew and staph-resistant additives in the vinyl and plastisol. This provides the wallcovering with resistance to the growth of mildew and bacteria, including mold, fungi, pink stain and black fungal stain.
