

# Luminous™ – Movable Glass Walls by Kwik-Wall

## Technical Data

STELLA · LUNA · ILLONA · AVA · MATA

### TRACK — LUMINOUS GLASS WALL

Kwik-Wall Luminous Glass Wall aluminum track systems are engineered and rigorously tested for the size and weight/sq. ft. of our glass wall models and configurations. Aluminum extruded tracks have continuous attachment raceways for connecting to partition support structure; crisp, clean lines with built-in ceiling return flange to protect surrounding ceiling finishes; and alignment pin slots for optimum track performance across track joints.

MODEL	Multi-Directional	Top-Supported	Floor Supported (FS)   Floor Guided (FG)		Telescoping
<b>STELLA</b>	 Individual panels	 Single pivoting panels	N/A		N/A
<b>LUNA</b>	 Individual panels	 Continuously-hinged panels	<b>FS</b>  Top guide channel Continuously-hinged panels	 Floor track	N/A
<b>ILLONA</b>	 Individual panels	 Single pivoting panels	<b>FG</b>  Top Track Sliding or Continuously-hinged panels	 Surface mount   Recessed	<b>FG</b>  Top Track (single/multiple)  Surface mount   Recessed
<b>AVA</b>	 Individual panels	 Hinged-Paired panels	N/A		N/A
<b>MATA</b>	 Individual panels	 Hinged-Paired panels	N/A		N/A

**WARRANTY:** Our confidence in the engineered load-bearing capacity, durability, operational ease and aesthetics that are built into all of our track systems, allows us to offer the best track & carrier warranty in the industry: **10 years on every manually operated track and carrier system we manufacture!**
