Kwik-Wall's Luminous Glass Wall Line Expands With NOVA

February 16th, 2026 - Kwik-Wall announces the launch of the **NOVA** model, the newest addition to its *Luminous*[™] line of best-in-class interior movable glass walls. Nova has been developed to meet growing demand for a high-performance framed glass wall system that delivers exceptional value and acoustic performance. Key features include:

- 44 STC acoustic rating
- Maximum daylighting
- Framed system design
- Competitive pricing

“Nova provides a compelling solution for space division projects requiring strong sound control, modern aesthetics, panel-edge durability, and a more accessible price point”, said Jake Erickson, Kwik-Wall V.P. Sales and Marketing.

NEWS RELEASE

Technical data, photos, and system details are now available on the Kwik-Wall website on the glass wall product group page.

Nova represents another strategic step forward in expanding Kwik-Wall's industry-leading Luminous glass wall line, strengthening their distributor network's ability to win glass wall opportunities across a wider range of projects.
